# AADITYA YADAV

+91 8356935532 ⋄ aaditya.yadav2024@nst.rishihood.edu.in
LinkedIn ⋄ GitHub ⋄ Codeforces ⋄ LeetCode

## PROFESSIONAL SUMMARY

Computer Science undergraduate focused on designing and building scalable full-stack and AI-powered systems. Solved 250+ DSA problems across LeetCode and Codeforces (rating: 1039), reflecting strong algorithmic thinking and consistency. Built multiple end-to-end applications leveraging modern web stacks and data-driven approaches. Interested in applied AI, system design, and developing high-impact, scalable products.

## EDUCATION

**Newton School of Technology, Rishihood University** 2024 - 2028
Bachelor of Technology (Artificial Intelligence) Grade: 7.5/10.0

**Narayana e-Techno School and Jr College** 2022 - 2023
Intermediate (Class XII) Grade: 70.67%

**Rita Memorial High School** 2020 - 2021
Matriculation (Class X) Grade: 83.0%

## SKILLS

| | |
|---|---|
| **Languages** | Python, TypeScript, JavaScript, C++, SQL, Machine Learning |
| **Software/Tools** | Pandas, NumPy, Matplotlib, Figma, Prisma ORM, React, Node.js, Express JS, MySQL |
| **AI & Frameworks** | GenAI, LLM, LangChain, LangGraph, Hugging Face, LangSmith, Scikit-learn |
| **Others** | Git, GitHub, Problem-Solving, Data Structures & Algorithms |

## PROJECTS

**EduPulse — AI-Powered Academic Coaching Platform** April 2026
*GitHub — Demo*

- Built an AI-driven academic intelligence platform that clusters students into performance tiers using K-Means and predicts pass probability via Gradient Boosting.
- Developed an autonomous LangGraph tutor agent with RAG (ChromaDB + Hugging Face embeddings) for context-aware resource retrieval and stateful tutoring sessions powered by Groq (LLAMA 3.3-70B).
- **Tech Stack:** Python, Streamlit, Scikit-learn, LangGraph, LangChain, Groq API, ChromaDB, Pandas, Matplotlib.

**Nexus Research: Agentic AI Assistant for Reseach** March 2026
*GitHub — Demo*

- Built a dual-mode research analysis platform combining a Classical NLP pipeline (TF-IDF, LDA topic modeling, extractive summarization) with an autonomous LangGraph-powered AI agent.
- Integrated live web search and multi-source retrieval to generate LLM-based comprehensive reports using Groq (LLAMA 3.3-70B).
- **Tech Stack:** Python, Streamlit, NLTK, spaCy, Gensim (LDA), Scikit-learn, LangGraph, BeautifulSoup4, Groq API.

## DECLARATION

I hereby declare that all the details furnished above are true to the best of my knowledge and belief.
